

## Languages Around Me

Australia is a very diverse country with over 200 languages spoken. Indigenous Languages vary around the country and many Australians speak at least one other language. The 2021 Census showed us that 22% of Australians speak a language other than English at home.

**ACTIVITY:** Write the languages you speak in the pink speech bubble. Then write the different languages around you hear around you at school, home or in your community. Write where you hear or speak each of them.
