

### National Animals

Most countries have an animal they think of as their 'national animal'. This might be on their national flag, or on national or state emblems, or even, like New Zealand, be what people from that country are referred to e.g. Kiwis!

*ACTIVITY:* Identify an animal represents your country, draw it and explain how it is associated with your country e.g. on the flag, native to your country, etc.

Animal/s:

How is it related to your country?

*ACTIVITY:* Draw animals you think represent other countries and label which country they are from.
